

IGEL Pro

Simplify your life

A simple solution for complex patient needs - the **IGEL Pro** is a tailor-made soft contact lens ideal for high plus and minus prescriptions and delivering a tried and tested back surface toric design with cyl powers up to -11.00DC in 0.25DC steps.

The Empirical Fitting Tool ensures a simple fitting experience.

IGEL Pro is supplied in CONTAFLEX GM3 58, which is excellently tolerated, minimises depositing and ensures all day comfort.
